

Principal's Message

Dear Students, Parents, and Staff,

As we prepare to welcome our students back for the 2026–2027 academic year, we hope that everyone is enjoying a joyful, restful, and memorable summer vacation. We hope our students have had the opportunity to relax, spend quality time with their families, and enjoy new experiences before the start of another exciting school year.

August has also been a month of preparation, as our dedicated **SMEIS** staff worked together to ensure a positive and welcoming start to the new academic year.

A new academic year brings new goals, new challenges, and new opportunities to grow. We are excited to welcome our students back and encourage every girl to approach the year with curiosity, confidence, and a positive mindset.

We look forward to working together with our students and families to make the 2026–2027 academic year a successful and memorable one. Together, we will continue to empower every girl to Lead, Know, Impact, and Grow.

Warm regards,
Mrs. Alice Joseph

Academic Programs

- **Summer Education Program (SEP) |
August 2026**

During August, **SMEIS** conducted the Summer Education Program (SEP) on campus for students who did not meet the passing requirements in certain subjects during the 2025–2026 academic year.

The program provided students with additional academic support and opportunities to strengthen their understanding of key concepts, review essential skills, and prepare for the upcoming academic year.

Past Highlights

- **Teacher Training | August 2026**

SMEIS teachers participated in a series of training sessions led by **Eng. Mina Fayez**, Instructional Leader and Director of Operations, to refresh and strengthen their understanding of subject-specific standards, their effective application in the classroom, and the development of annual plans aligned with these standards. The sessions supported teachers in maintaining consistent educational standards and enhancing the quality of teaching and learning.

Academic Programs

- **Second Language Preparation Course | August 23–26, 2026**

SMEIS offered an intensive four-day course for newcomer students from Grades 4–9 who had not previously studied a second language, either German or French. The course took place on the school premises from Sunday, August 23, to Wednesday, August 26, 2026.

The course was designed to help students build essential language foundations and become familiar with their second language before the start of the academic year, supporting a confident and smooth transition into their new learning environment.

Parent Engagement

- **Teaching Growth at Home**

"The only guarantee that tomorrow will get better is that you grow today."

John C. Maxwell

Learn to be the gardener of your personal growth by planting and nurturing your values and strengths.

Just as a garden needs patience, care, and consistent attention to flourish, children need encouragement, guidance, and opportunities to grow into their best selves.

Parent Inspiration

Parents can be the gardeners of their daughters' growth by helping them:

- **Plant strong values:**

Encourage honesty, kindness, respect, and responsibility in everyday situations.

- **Nurture their strengths:**

Help your daughter recognize her talents and provide opportunities to develop them.

- **Water growth with encouragement:**

Celebrate effort, progress, and learning—not only achievements.

- **Give room to grow:**

Allow your daughter to make age-appropriate choices, learn from mistakes, and become more independent.

- **Create a positive environment:**

Surround her with experiences and relationships that encourage confidence, curiosity, and personal growth.

Based on concepts from the iLead Program by the Maxwell Leadership Foundation.
